## **New 275 XSF Unveiled from Scout Boats, Inc.**

**Summerville, SC – Scout Boats, Inc.** recently unveiled the new 275 XSF, a forward seating center console model with the company's revolutionary Nu-V3 high performance, fuel saving hull design.

Scout is known for introducing models with market-first innovations that separate their models from the competition, and the 275 XSF is no exception. One interesting feature is the wave gate/fold down stern seat that folds down all the way to the deck floor creating easy access to the transom, swim platforms and engines.

The model showcases Scout's patented T-top/hardtop w/ tempered glass enclosure, a one-of-a-kind electronically actuated sliding electronics plexiglas window at the helm that completely protects your electronics package, Alpine stereo w/ iPod jack, rocket launchers, deluxe fiberglass leaning post and a comfortable, full bolster and console cushion set.

The cockpit offers spacious fishing room, as well as a bait prep station w/ sink and stainless tackle drawers. There's also room for an optional Kenyon electric grill to cook up the catch of the day with the help of an inverter/charging system that's also an optional feature.

Forward seating is available in the bow, both port and starboard, with optional innovative backrests that slide up and down depending upon your needs. Underneath the forward seating are fish boxes/storage that complement the in-floor fish box w/ diaphragm pump.

Standard features on the 275 XSF include, LED courtesy rope lighting, forward console seat with storage/removable cooler underneath, (4) stainless steel flush mount rod holders, room for (6) horizontal rod storage, (2) 20-gallon aft bait wells, battery charger, fresh water wash down w/ 15 gallon tank, hydraulic steering with tilt, trim tabs and a completely private head with locking door, porthole and self contained porcelain head just to name a few.

Additional optional features include choice of four hull colors, windshield wiper, outriggers, vertical windlass w/ polished stainless anchor roller, anchor road and chain, Lewmar bow thruster, 12V refrigerator and a deluxe stereo upgrade.

--more--

Scout builds sportfishing, fish 'n ski, walk around, flats and bay boat models ranging from 15' to 35'. Since it's founding over two decades ago, Scout Boat's goal has been to manufacture the best-built boats in its distinctive sportfishing niches. Each Scout hull is a true original, as the in-house research and design team works closely with engineering to take concepts from blueprint to production more efficiently, growing the company's world-class reputation for quality, strength, durability and value.
