### **New Scout Boats 320 LXF Debuts**

**Summerville, SC – Scout Boats, Inc.** recently unveiled the all-new **320 LXF**, a forward seating center console model with the company's revolutionary Nu-V3 high performance, fuel saving hull design.

Scout's LXF Collection is comprised of luxury sportfish models that showcase a unique blending of high-performance fish boats with high-end cruisers. The cross between these two popular recreational marine mainstays allows you to enjoy amenities on this collection normally only found on much larger sportfishers. The 320 is the third model in this category to date, accompanying the 275 LXF and 350 LXF models.

Scout is known for introducing models with market-first innovations that separate their models from the competition, and the 320 is no exception. One interesting feature is the state-of-the-art C-Zone digital switching electronics system. It's easier to service than conventional electronic systems and even comes with a remote key FOB that allows you to program different electronics on the boat to power on or off with the touch of a button.

The model showcases Scout's patented T-top/hardtop w/ tempered glass enclosure, a one-of-a-kind electronically actuated sliding electronics plexiglas window at the helm that completely protects your electronics package, Fusion stereo w/ iPod jack or USB flash drive, deluxe fiberglass leaning post with a bait well, tackle drawers, cup holders sink and rod holders, and a comfortable, full bolster and console cushion set.

In the bow, there's an optional entertainment station that includes a sink, cutting board, tackle drawers, a 110V outlet and an electric forward backrest, as well as an optional grill station w/ inverter/charging station to cook up the catch of the day.

Forward seating is available in the bow, both port and starboard. Underneath the forward seating are fish boxes/storage that complement the in-floor fish box. An optional convenient fiberglass bow table can be installed easily to convert the bow seating area into another entertainment area for family and friends to enjoy.

Additional standard features on the 320 include dual swim platforms w/ center walk-thru, transom door, aft under deck systems station w/ storage, hide away transom seat, forward cooler seat, starboard console storage closet for a brush, gaff, lines, etc., an electric marine head, trim tabs and stainless steel flush mount rod holders.

Additional optional features include choice of four hull colors including a new Azure Blue color, a console berth cushion, side dive door, 12V refrigerator and outriggers just to name a few.

Scout builds sportfishing, fish 'n ski, walk around, flats and bay boat models ranging from 15' to 35'. Since it's founding over two decades ago, Scout Boat's goal has been to manufacture the best-built boats in its distinctive sportfishing niches. Each Scout hull is a true original, as the in-house research and design team works closely with engineering to take concepts from blueprint to production more efficiently, growing the company's world-class reputation for quality, strength, durability and value.
