Our all-new premier flagship, the 670 LXS (Sport), is being designed in partnership with world renowned super yacht design studio Harrison Eidsgaard. One of the largest outboard-powered sportfishing yachts to be built in the world, this new Luxury Sport Model will encompass all of the incredible features of luxury, fishing, cruising and high performance. Expect Everything.

The 670 LXS (Sport) will be powered with five (5) Mercury V-12 600 HP engines, producing 3,000 HP and a projected top speed in the upper 50s, an approximate fast cruise of 40 MPH, and a range of approximately 450 miles.

670 LXS *(Sport)* | SPECIFICATIONS
